

**Thank you for attending! Welcome to the no code community!** 😊😊😊

Start building tools to bring awareness, capture leads and create products for your company.

**Overview:**

What's no code? No-code is a way of building websites and applications without writing code. No code tools can support simple or complex app building with API integrations and data.

**Why?** You can build an MVP, landing pages, online stores, and customer portals without needing a technical founder.

**Advantages:** Inexpensive, quick and vibrant community with growing list of tools.

**No code Resources:**

Created on Glide (at end of presentation)

---
